EXPERIENCE

June 2015
Present

GALLUP | OMAHA, NE

UX Developer Intern

- Re-wrote and re-designed the front end of an internal learning and wellness application from scratch
- Created new components and tools that leveraged into a number of other projects, accelerating development progress
- Used and contributed to style guides and other design documentation to maintain consistent design patterns
- Identified and eliminated website bugs to boost performance and improve the overall user experience

Dec 2016
May 2017

WILDEGUIDE | BOULDER, CO

Front End Developer Intern

- Wireframed and prototyped the initial design for the WildeGuide platform
- Developed the design in Shopify using CSS & Liquid (Shopify templating language)
- Created and designed a slide deck used to pitch to investors at Boulder's *New Venture Challenge*
